### To Whom It May Concern

This letter is to certify that we have performed a structural analysis of the existing roof members that are to support photovoltaic panels, as shown on the attached report. The calculations were performed in accordance with the latest editions of IBC, NDS, ASCE/SEI, CBC, and IRC, and the 8th edition 2009 Massachusetts building code.

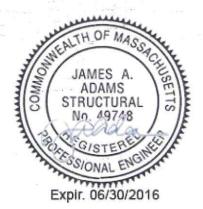

Our analysis was based on the following design criteria:

Ground Snow (psf)	40 psf
Sloped Snow (psf), reduced per ASCE, Sect. 7.4	26 psf
Basic Wind Speed (mph):	90 mph
ASCE Code:	7-05
The PV module orientation:	Portrait
The maximum horizontal roof mount spacing:	4 ft.
The maximum vertical roof mount spacing:	2.75 ft.
Staggered roof mounts required?	Yes

Based on this analysis, we can certify that the individual existing roof framing members that support the PV panels; and the individual roof members as described in the attached report; are adequate to support the design loads as required by the various codes. This includes Dead Loads (including the weight of the PV panels), Live Loads, Snow Loads, and Wind Loads, on the roof members that support the PV panels, combined as required in the codes.

If you have any questions on this or need further clarification, please contact us at your convenience.

Sincerely James A. Adams, S.E.

ABSTRACT

This Report is based on Engineering calculations using the input data supplied by the user, listed under Current Input Data. The user's input has not been independently reviewed by a licensed Professional Engineer for appropriateness or accuracy, unless Stamped by a P.E. This Report indicates Compliance/Non-Compliance with the reference Codes listed below. The following items have been checked for Code Compliance:

- Load Combination #1: Wind Uplift on the Standoff attachment to the Roof Framing members: Wind Uplift -0.6DL Solar

- Load Combination #2: Supporting Rafter Strength with: DL Rf + DL Solar + Roof Live Load

- Load Combination #3: Supporting Rafter Strength with: DL Rf + DL Solar + Wind Down

- Load Combination #4: Supporting Rafter Strength with: DL Rf + DL Solar + Snow

- Load Combination #5: Supporting Rafter Strength with: DL Rf + DL Solar + .75Wind + .75Snow

- Load Combination #6: Check Additional Seismic Load

- Load Combination #7: Supporting Rafter Strength with: Wind Up - 0.6(DL Rf + DL Solar) Job Name: Todd Carlson Residence Job Number: 221R-012CARL Job Address:

12 Buckley St Southbridge, MA 01550

### Job Information

Data Input By: Job Number: Job Name: Job Address: City, State:

### SEISMIC SUMMARY

### Sect. 3404.3 Alterations (See Exception):

The addition of the Solar Panels, meets the following:

The design strength of existing elements required to resist seismic forces is not reduced.

The seismic force to required existing structural elements is not substantially increased.

No new structural elements are being added.

New nonstructural elements are being connected to existing structure per Chapter 16.

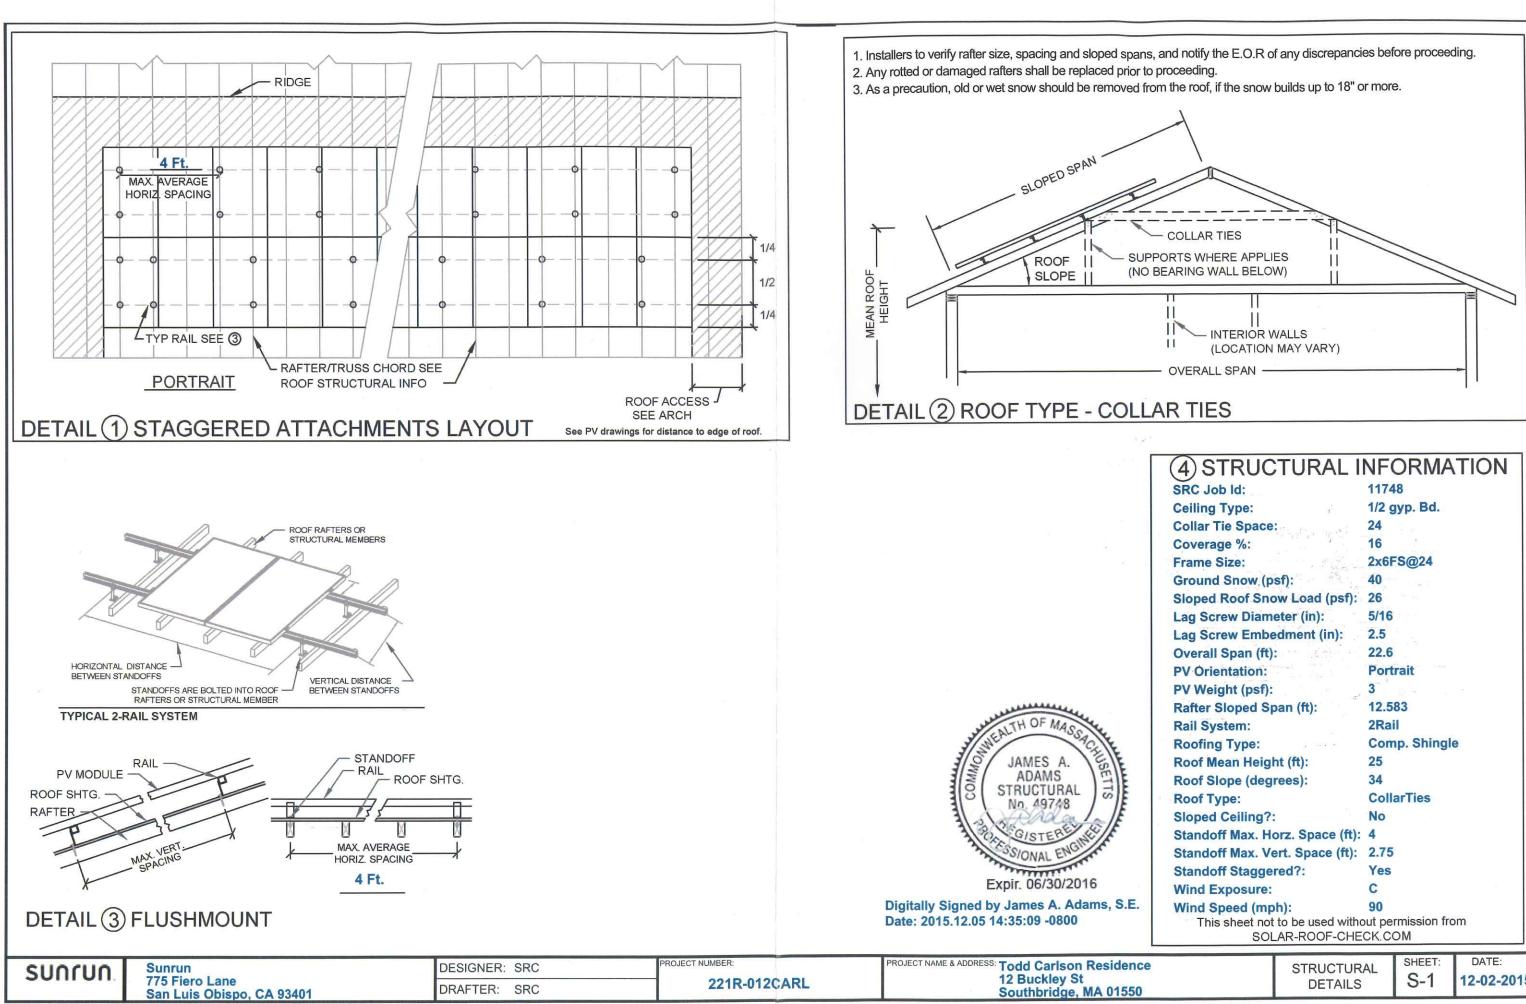

Alterations do not create structural irregularities.

Note: For ASCE 7-10 the wind forces have been multiplied by 0.6

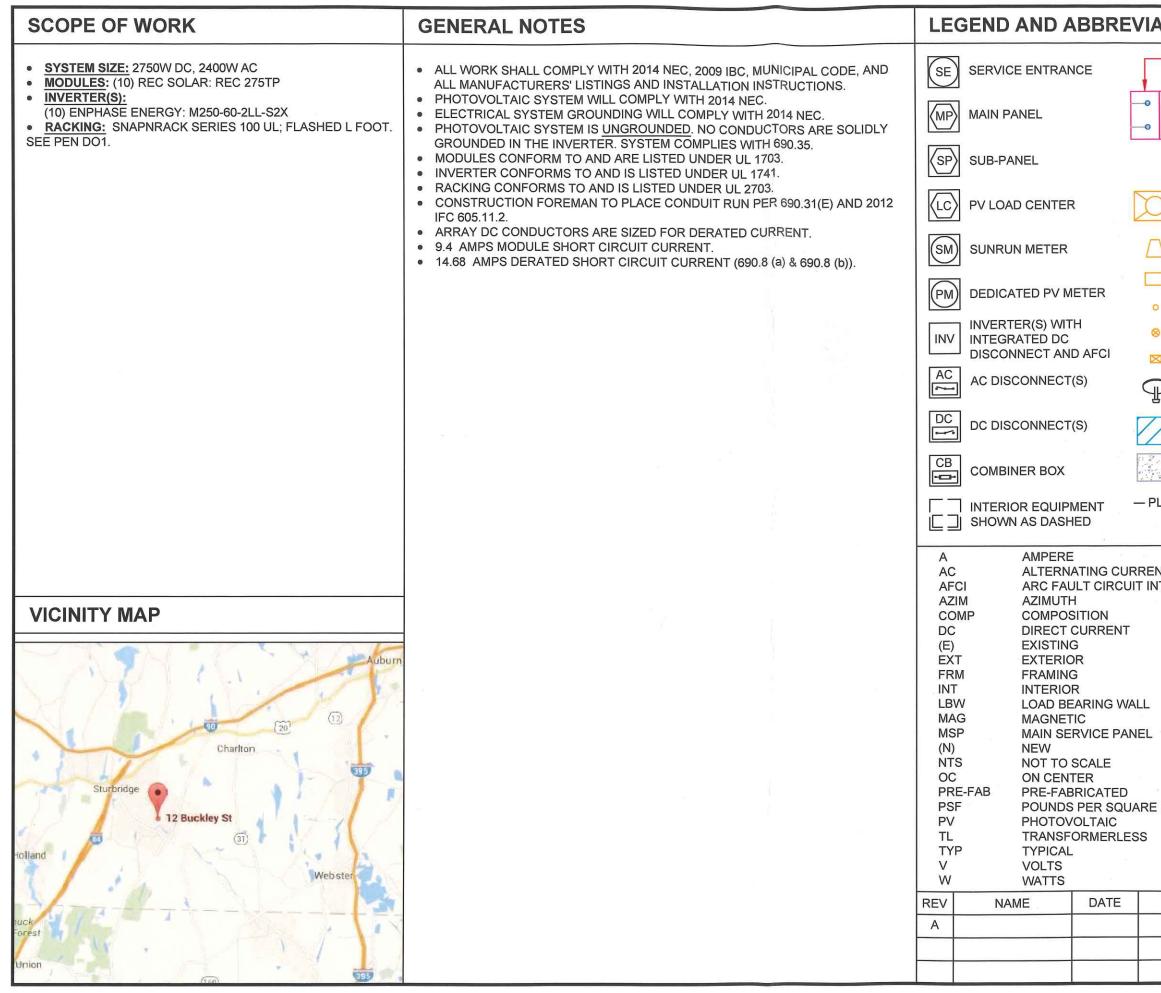

LOADING COMBINATION #7:	ZONE 1	(0.6)(DL RF + DL SOLAR) + WIND UP	(Cp=1.6)
$P_7 := TA \times (p_{up} - 0.6 \times DL_{So})$	$\operatorname{lar} \times \cos(\theta)$		188.52

% := $\frac{S_x \times 100}{Sr}$ << If equa	L TO OR MORE	THAN 100% CODE COMPLIANT, OK!	311.01

### LIMITS OF SCOPE OF WORK AND LIABILITY

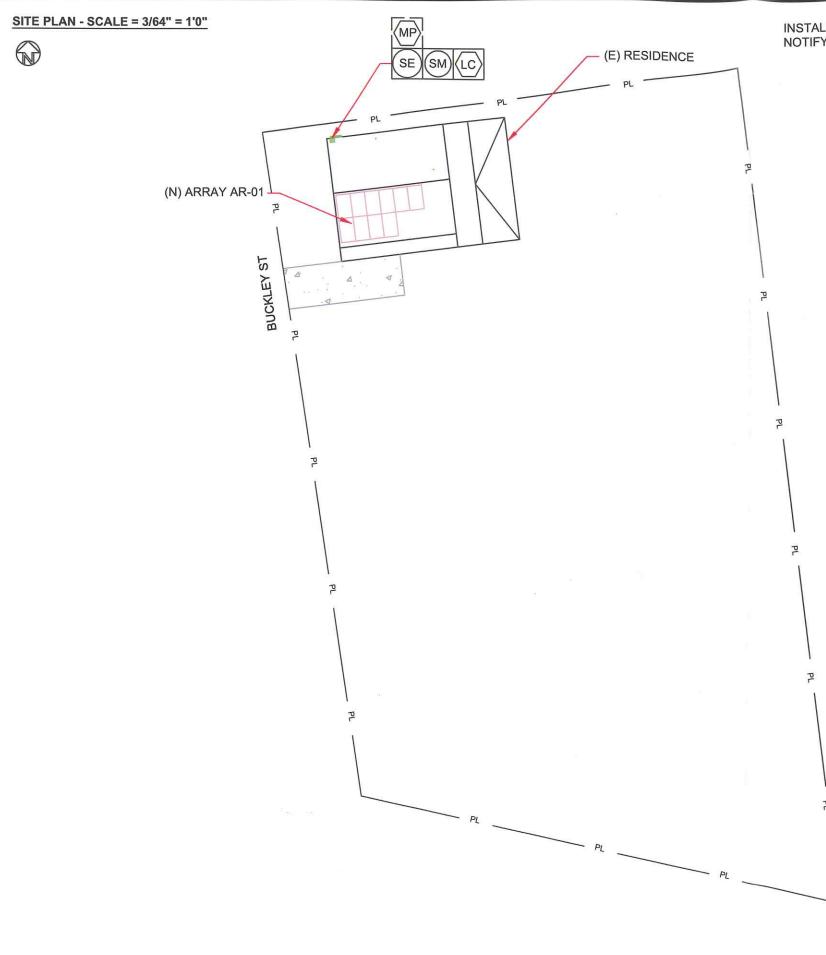

Existing deficiencies which are unknown and not observable due to their being concealed inside walls, or sandwiched behind gypsum board ceilings at the time of inspection are not included in this scope of work. These calculations are for the roof framing which supports the new PV modules. These calculations do not include a complete lateral analysis of the building, nor a prediction of the life expectancy of the existing building.

#### TOWN OF SOUTHBRIDGE

## **HOMEOWNER WARNING NOTICE**

IF YOU ARE APPLYING FOR A BUILDING PERMIT AS A HOMEOWNER

- A homeowner is defined as a person who owns a parcel of land on which they reside, or is intending to reside, in a one or two family dwelling, with attached or detached structures accessory to such use and/or farm structures. If you do not meet this definition a building permit cannot be issued to you as a homeowner.
- You will be personally responsible for all work on this project.
- You are responsible to see that all work meets the Massachusetts State Building Code and the Town Zoning By-Laws.
- You must supervise all work.
- You must call the Bldg. Dept. to schedule all required building inspections.
- You must be present for all the building inspections.
- You have waived all rights to the Massachusetts Guaranty Fund.
- You are the General Contractor of the project and a court of law will view you as such if you are sued, or if you should have the need to sue another party.
- Your subcontractors may lien your property.
- Any worker injured on your project may sue you if you or the company they work for does not carry Workmen's Compensation Insurance.
- Failure to carry Workman's Compensation Insurance may result in criminal penalties, i.e fines and/or imprisonment. (Reference MGL c.152 Sec.25).

This warning has been assembled because we have found that a majority of those citizens who sign the Homeowner's Exemption Form are not aware of the responsibilities that go along with assuming the construction responsibilities.

Your signature below verifies you have read this warning and understand its requirements.

Signature: Date: Property Address:

The Commonwealth of Massachusetts <b>Town of Southbridge</b> Department of Inspections Services 41 Elm Street In accordance with the 780 CMR(Massachusetts State Building Code) this <b>OCCUPANCY PERMIT</b>

### NOTICE OF CANCELLATION

To Whom It May Concern,

The purpose of this letter is to request the cancellation of building permit #B-274 and electrical permit #10128 for the photovoltaic solar project located at 12 Buckley Street. The homeowner, Todd Carlson, has decided not to move forward with the project.

If you have any questions or concerns, please feel free to contact me. Thank you for your consideration.

Regards,

Conor Smith (978) 493-4131 conor.smith@sunrun.com
