Applicant - Please Note the Following:

Weatherproof placard given at the time permit is issued must be displayed on premises and be visible from the Street.
 The Code Enforcement Office must be notified and inspections made of prior work in accordance with the following schedule.

- 1 Footings, must be inspected and approved before concrete is poured.
- 2 Drain tile systems, cellar or basement walls, must be inspected and approved before backfilling.
- 3 Plumbing Rough in
- 4 Mechanical Rough in
- 5 Framing after rough ins, before insulation, including fire stopping and caulking
- 6 Wall board before taping
- 7 Final inspection when building is complete but before occupancy.

****Electrical, mechanical & air sealing/insulation (testing or visual) inspections must be done by an approved, certified, outside agency (inspection report must be submitted to Township prior to Occupancy)**

The above schedule applies to any work for which a permit is issued. The Code Enforcement Office may require that additional inspections be made on certain types of work. If such is the case, the applicant will be so advised.
IMPORTANT: The Code Enforcement Office reserves the right to reject any work which has been concealed or completed without having been inspected and approved by said Office in accordance with the requirements of the various codes.

APPROVED PLAN REVIEW

PLAN NUMBER 0092-21

DATE APPROVED 1/22/2021

PROJECT MUNICIPALITY Newberry Township

PROJECT ADDRESS 1380 Cly Rd.

PROJECT DESCRIPTION construct a pole barn at a single family dwelling

OWNER Joseph Curotenulo

The above referenced project construct a pole barn at a single family dwelling has been reviewed in accordance with the Pa. UCC and found to be generally in conformance with the referenced model building codes. I recommend that a Building Permit should be issued to the applicant. I have the following comments that should be noted on the Permit:

All work, wether or not shown on the construction documents shall comply with the Pa. UCC (IBC and IRC 2003 as referenced). Work not shown will be field checked to determine compliance. Construction documents shall be on site at time of inspection; if not the inspection may be failed, at the discretion of the inspector, for failure to have them available for reference purpose.

Please call me if you have any Questions.

Thank You,

Plan Reviewer

THIS IS A PERMIT TO:

construct a pole barn at a single family dwelling

A Permit to construct a pole barn at a single family dwelling at 1380 Cly Rd. has been granted according to the Municipal Building Code of Newberry Township . This Permit has been granted to the property owner under the condition that work on this project shall conform to the Municipal Building Code of Newberry Township and the Pennsylvania Uniform Construction Code, (2015 IRC edition), the submitted and approved Constructin Documents, and all other applicable Laws and Regulations. Futhermore, the Owner shall be responsible for insuring that all required inspections are scheduled and performed and that right of entry, for inspection purposes, shall be granted to the appropriate Code Inspection and Enforcement Authorities. Access shall be granted during normal business hours in accordance with the Pennsylvania Uniform Construction Code.

I have read this Permit, the inspection check list, and any notes or addendums on or attached to the Permit and/or Submitted Construction Documents. I understand the obligations, as well as the privledges granted by this permit and agree, by adding my signature, that the work shall be performed in accordance with applicable Codes.

SCHEDULING INSPECTIONS

Our inspectors are in from 6:00 am to 8:00 am Monday through Friday to schedule inspections. You may leave inspections on voicemail as long as you are not requesting specific times, please note that due to the high number of inspections at this time we CANNOT guarantee any inspection time, you may REQUEST an inspection time and we will try our best to get there as close to the time you requested.

To leave an inspection on voicemail please make sure you include:

Your Name
A contact phone number
Property Address
City
Municipality
Permit number (this is very important)
Which inspection you are requesting

Below is a list of inspections that you MAY be required to have done, please refer to your inspection checklist included with your permit as to which inspections you need. If your fee was collected by the Municipality that fee was based on the following inspections being done and correct (no violations) in the manner listed below:

Footing (all footings that are to be dug for entire project, includes houses, garages, decks, etc.
(unless a separate permit is pulled for each)

Foundation (should include: underground plumbing, slab, damp proofing, rebar. (All of these items can be inspected at the same time)

Framing rough in \
Plumbing/Mechanical rough in -----(All of these inspections should be done at the same time)
Electrical rough in electrical service /

Insulation rough in

Drywall

Final

If we are called out for additional trips due to violations or for example; service not ready at time of electrical rough in, and we have to come back, a fee of NO LESS THAN \$50.00 will be charged to the permit applicant and/or the property owner. We have the right to withhold certificate's of compliance until any additional fees are paid. If you have any questions please contact our office or an inspector, we will try to answer any questions you may have.

INSPECTION NOTES

All work, whether or not shown on the construction documents shall comply with the Pa. UCC (IBC and IRC 2003 as referenced). Work not shown will be field checked to determine compliance. Construction documents shall be on site at time of inspection; if not the inspection may be failed, at the discretion of the inspector, for failure to have them available for reference purpose.

Those inspections annotated with a check mark are a required inspection for the work permitted. Noted inspections may be waived or additional inspections may be required, at the discretion of the Code Official, as deemed necessary in order to insure Code Compliance. Inspection approval must be obtained for the work currently complete before proceeding to the next step of construction listed in order for each trade.

All inspections will be conducted by Commonwealth Code Inspection Service, with the exception of special inspections required by the Pa. UCC and/or IBC Chapter 17; or as otherwise directed by the authority having jurisdiction. Special inspections shall be performed per the Pa. UCC and/or IBC Chapter 17. The applicant or authorized representative must request all regular inspections directly through Commonwealth Code Inspection Service, Inc. with at least 24 hours notice. Same day service may be provided if calls are received before 8:00 AM. Telephone 717-846-2004
