**Re: Proposed 15 x 20 Porch
Tax Map Parcel No. 36-28-62**

Dear Mr. Dyson:

I have reviewed the submitted sketch plan identifying the existing dimensions of the improvements of the above referenced property and offer the following comments:

1. The property is located in the SRC Zoning District, and the use of the property is a B1 single family detached dwelling use.
2. The lot size as indicated is 50 x 200 10,000 sq ft. The maximum allowable building coverage is 10% percent and the maximum impervious surface allowable is 5% percent. It is noted, that the lot is nonconforming as it relates to the existing building and impervious coverages exceed both the maximum allowable building and impervious coverages, thus variances will be required.

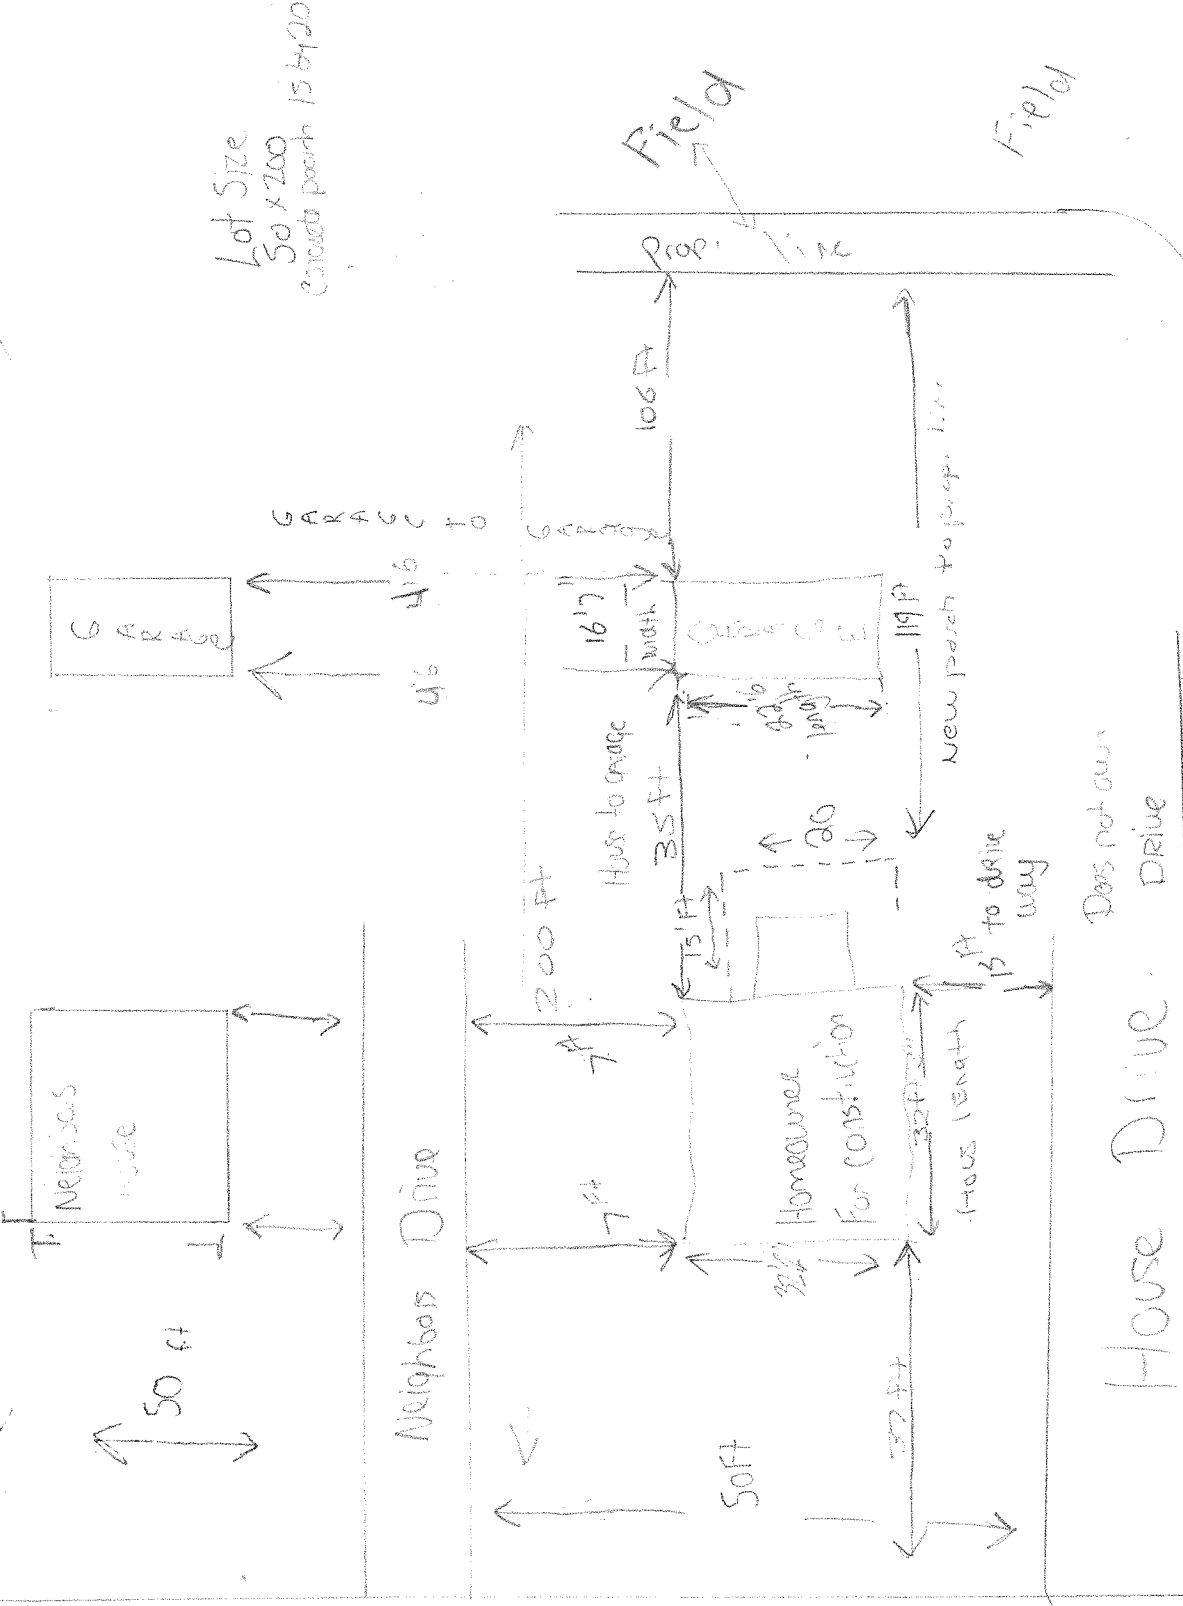

If you would like to proceed with the submission of a Zoning Hearing Board application, please be advised, the sketch plan as submitted will not be sufficient for the hearing. You are required to have a plan completed by a Professional Engineer identifying the lot size, setbacks required for the zoning district, location of existing structures and improvements with the associated dimensions along with providing the site capacity calculations as defined in the Zoning Ordinance.

I have enclosed the criteria that the Zoning Hearing Board will follow for the requirements that must be met for a variance request.

Sincerely,

Richard Brittingham
Asst. Twp. Mgr./Zoning Officer
