Subject: 10 Old Thompson St

Good Afternoon,

In response to your records request for the address listed above, a search through our computer files returned one building permit. There was a permit for a swimming pool in 2003 by James Beatty. If you need more information on this permit, there will be a charge for time. The records from this time are in the cellar of the town hall. There are no open code violations listed in the building dpt for this property.

For liens, you should check with the tax collector, you may also want to check with the board of health for any violations through their department.

Thank you

Administrative Assistant for the Inspector of Buildings / Building Commissioner

Building Department

4417 Main St

Palmer, MA
