Subject: RE: 28 Columbia Way // Public Records Request

Hello

The Town of Newbury implemented online permitting through Permit Link in 2014. There are no permits in Permit Link for this address from 2014 – forward.

Pre-2014, each address in Town has a property folder in storage, for all permits pulled in the past and any supporting documents. 28 Columbia Way does not have a property folder out back – we have no information or permits on this address. That does happen with some addresses, as the Town did have a flood in the past, and some pw had to be destroyed due to mold and mildew. This means there are no open permits.

I checked the MA DEP website, no filings through Conservation were ever received; I checked my zoning files, no zoning submittal has ever been received. We have no building permits for this address, no supporting documents.

I checked online at the Registry of Deeds for you, and with our Treasurer/Collector office, there have been no past liens on the property, and no past due monies are due to the Town for taxes or excise taxes.

Thank you,
Chrissy
