## APPROVED BUILDING PERMITS

Building permits help to establish compliance of construction work with the minimum standards of safety established by the State Building Code to ensure public health and safety for everyone. A building permit is required before beginning most construction, demolition, modification and repair work. The Inspectional Services Department offers permitting processes tailored for a wide variety of projects, from home repairs to building demolition.

For more information on the permitting process, visit our Inspectional Services Department Permitting Process (<https://www.boston.gov/departments/inspectional-services/inspectional-services-permitting-process>) page. To apply for a new building permit or check the status of your pending permit application, go to our City of Boston Permits and Licenses Application (<https://onlinepermitsandlicenses.cityofboston.gov/isdpermits/Views/Login.aspx?PID=fxwKp6NAS54YEyBwyk0feWRPuv+KhYS8KtIVzhivTcnxyBjZnxjT+xe4QY6pZE68Lx42QYOFXsycDoGZVRLA==>) page.

### WHAT IS THE DATASET FOR?
