## Search for Records

Only one search field is required. For example, enter the street name in question and click Search to return results.

- Entering more search fields returns a shorter result list while entering fewer search fields expands the search results.
- When searching by address, for best results leave off the Street Type.
- Select the Search All Records checkbox to search across all modules in PLUS. Leave unselected to only search Zoning records.
- Use \* to match any string of characters (when unsure of spelling for example).
- To perform a record number search use a hyphen between each section of the number. Record numbers are generally formatted with a record type abbreviation, submission year and 5 digit sequential number such as XX-2022-00001. Record types such as Rezoning, Special Permits, and Appeals will contain a 2 character supervisor district abbreviation in addition, in format XX-2022-XX-00001.
