Re: Open Electrical Permits:

Dear Mr. Lee,

In response to your inquiry from April 12, 2017 regarding the closure of open alarm system electrical permits, please note the following:

- Not all low-voltage systems require an inspection.
- Final inspections are required in order to close open permits.
- Our Electrical Inspector will perform required inspections if requested and performed in the presence of the licensed permittee.
- Permits expire after 12 months of inactivity and therefore would have to be renewed prior to inspection.

The following permit issuance dates are from Department records:
